Morita Scans Viewer Manager

Just put the CD into the CD drive and click here to import a new CBCT scan into the manager.

Use this if the scan data is not given to you on a CD

Select your patient's name

Click here to open the scan in 3D

Just type in your comments relative to each image. Scroll through your previous notes too.

A reminder of the scanning parameters used for each scan

Export the selected images to the patient's notes

Click to make thumbnail larger

At a later date, review your screenshots as a reminder of the specificities of the case, without having to go back to the full 3D data

Morita Viewer Manager 1.4.1.0
